Exhibition Details

electronica China is the leading trade fair for the electronics industry in Asia. It provides the industry with more display options and opportunities, as well as more participation from related application fields. More application demos for vertical industries will be included to create a cross-industry platform that is helpful to the entire industry chain from product design to application. More than ten forums focusing on cutting-edge topics in vertical industries will also be held during the exhibition, covering electric vehicles, automotive electronics, AI, embodied intelligence, third-generation semiconductors, embedded systems, artificial intelligence, industrial IoT, energy storage, smart manufacturing, medical electronics, connectors and motor drives.

Planet e: for a successful future

- Comprehensive range of products and services
- Leading business platform: high quality of buyers and decision-makers in upper management who are preparing for and conducting business transactions
- From components to systems, applications and services: everything here revolves around the world of electronics
- Technical forums with prominent speakers: topics covering cutting-edge technologies and hot application fields.

Previous key figures

2025 Exhibition space : 100,000 sqm

Number of exhibitors

Number of visitors

electronica China 2022 was postponed due to COVID-19

- Co-located with LASER World of PHOTONICS CHINA, analytica china, Vision China (Shanghai).
- Co-located with Vision China (Shanghai).

The entire electronics universe at one place

INTERDISCIPLINARY EXHIBITION THEMES

- Semiconductors
- Embedded systems
- Sensor technology
- Micro-and nanosystems
- Relays
- Passive components
- Connectors, Switches, Cable Harness
- Displays
- PCBs and other circuit carriers
- Power supplies
- Test and measurement
- EMS electronic manufacturing services
- Assemblies and subsystems
- Automotive
- Wireless
- Services
- Artificial intelligence technology
- Internet of things technology

KEY INDUSTRIES

- | | | | |
|--|---|--|-------------------------------|
| | Industrial Electronics / Industrial Control | | Internet of Things (IoT) |
| | Automotive electronics and EV | | Household appliance |
| | Consumer electronics | | Aviation & space technology |
| | Communication systems | | Military electronics |
| | Electricity and New Energy | | Lighting engineering |
| | Medical technology | | Rail transit |
| | Computers & peripherals | | Security & protection systems |
| | Mechanical engineering | | Intelligent building |
| | Mobile phone | | Artificial intelligence |

N1-N5

W1-W5

	Connectors, Switches, Cable Harness	W1-W4
	Power Supplies	W5
	Test & Measurement	W5
	Distributors	W5, N2
	Passive Components	N1-N2
	Display	N1
	Component Manufacturing	N2

	Sensors	N3
	Semiconductor Manufacturing	N3
	PCB EMS	N3
	Semiconductors	N3-N5
	Embedded System	N4

Exhibitor survey analysis

BUSINESS GOALS REACHED

Company, product & image presentation/promotion

Maintaining existing business relationships

Exchange of experience

Studying the competition, market overview

Presentation of innovations

Preparing future business transactions

Building up new business relationships

ASSESSMENT OF ELECTRONICA CHINA REGARDING

Completeness and breadth of product range

Brand influence of the trade fair

Promotion of the trade show

Quantity of visitors

Quality of visitors
